->The ringing phone is accompanied by an audio of the phone ringing.

->The use clicks anywhere on the screen and the screen progresses....

Hey... I am not feeling well...
Am I suffering from malaria?

Can you please help me solve this dilemma?

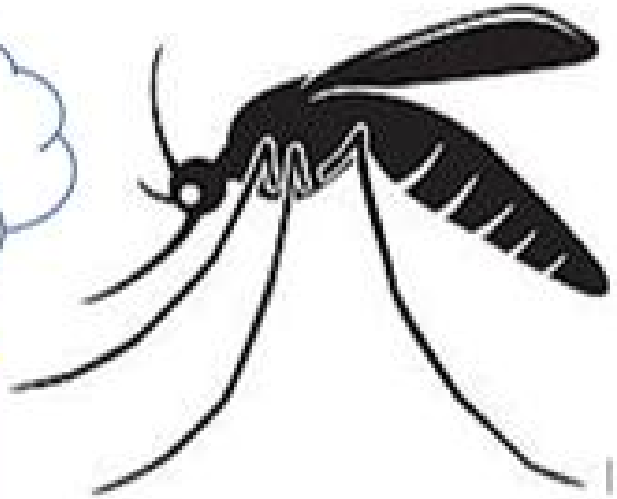
The user clicks on START to begin the Game

START

0/3

Joint and muscular pain

Chills, headache, nausea, vomiting, and diarrhea.



Rashes and swelling of body parts

The user needs to drag and drop the correct symptoms onto the Malaria Mosquito

MALARIA

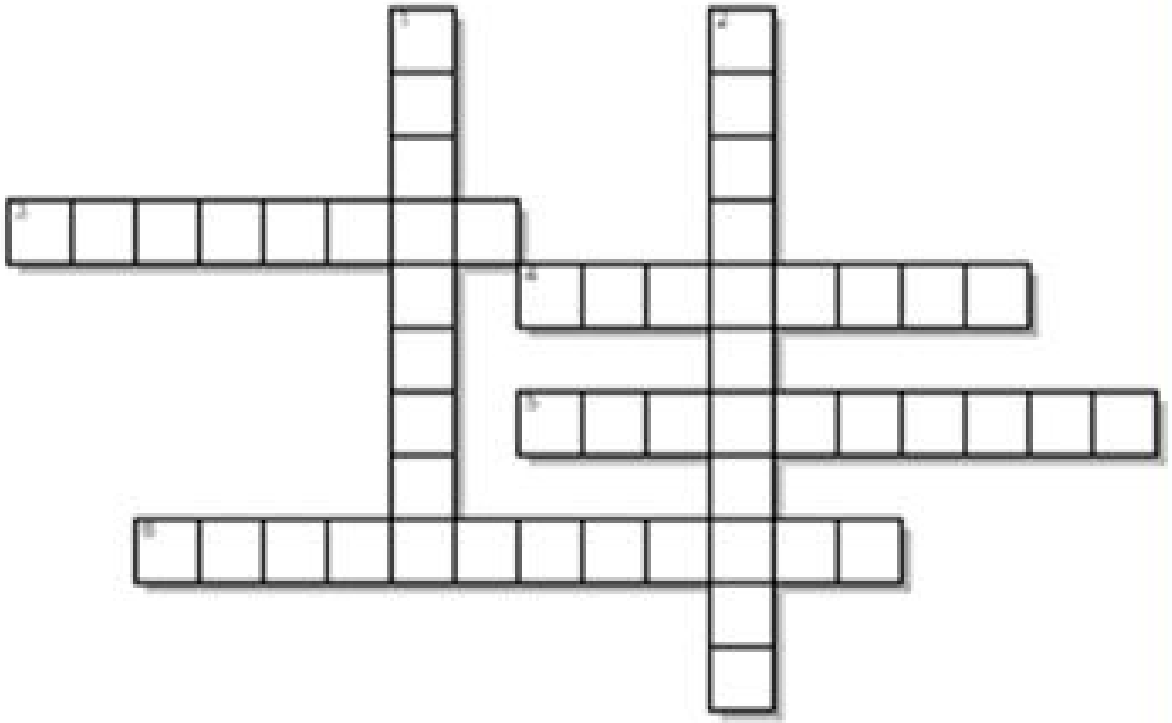
MALARIA

START

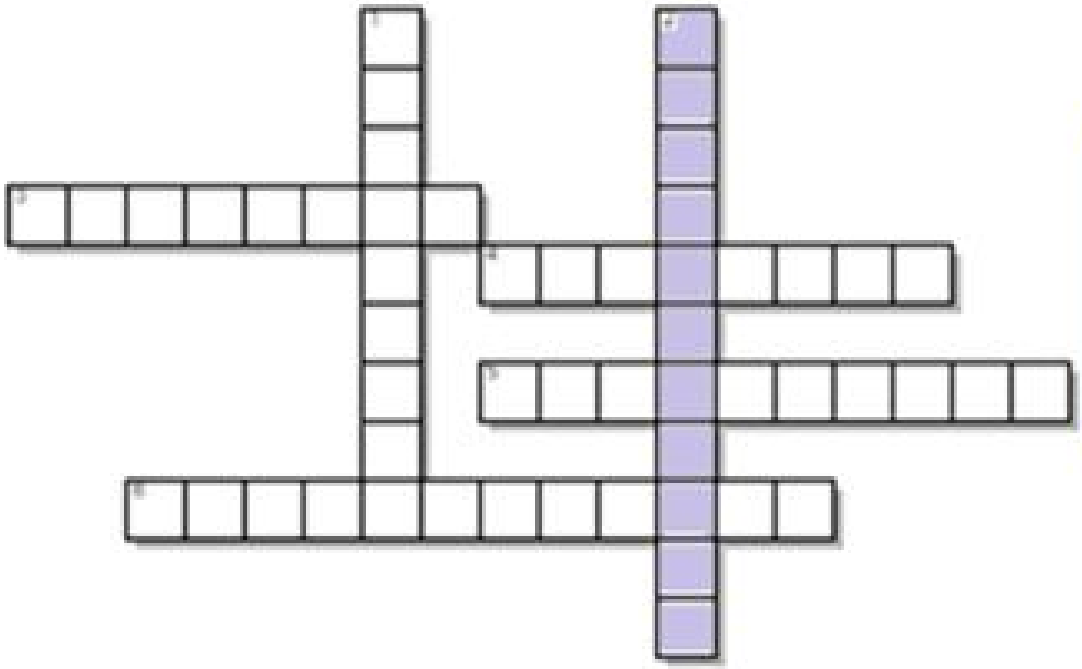
CROSS-WORD



When the user hovers over the word, (eg. Word -1 or Word-2), the hint corresponding to the word gets displayed in a bubble.

The user is given a prompt, wherein he can fill his answer and if his answer is correct, the answer gets displayed in the crossword dynamically.

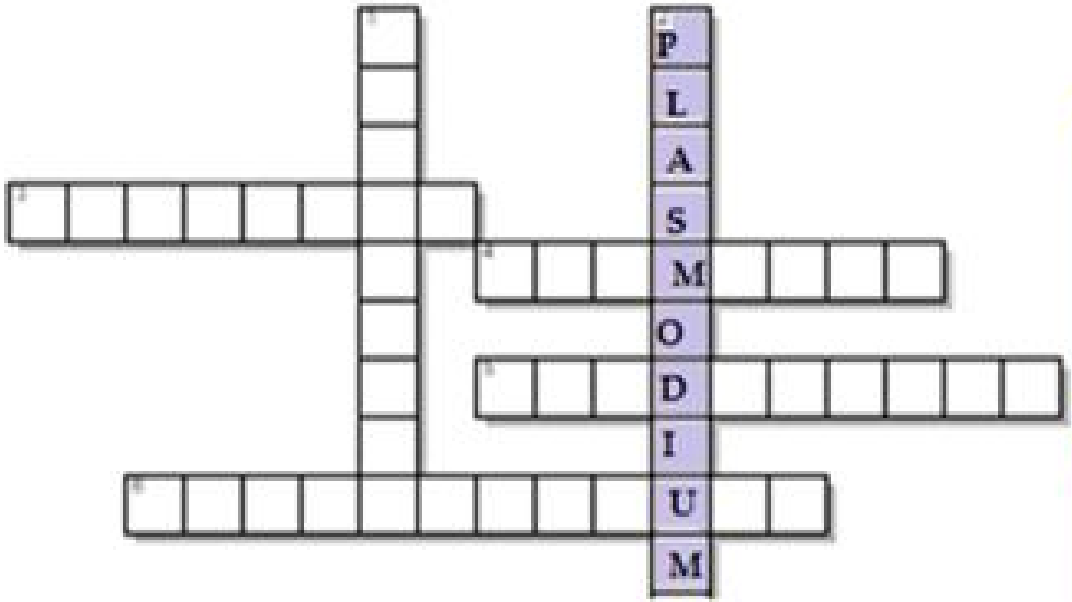
CROSS-WORD



Hint: Germs of Parasitic alveolates, many of which cause Malaria in their hosts.

Enter your Answer here…

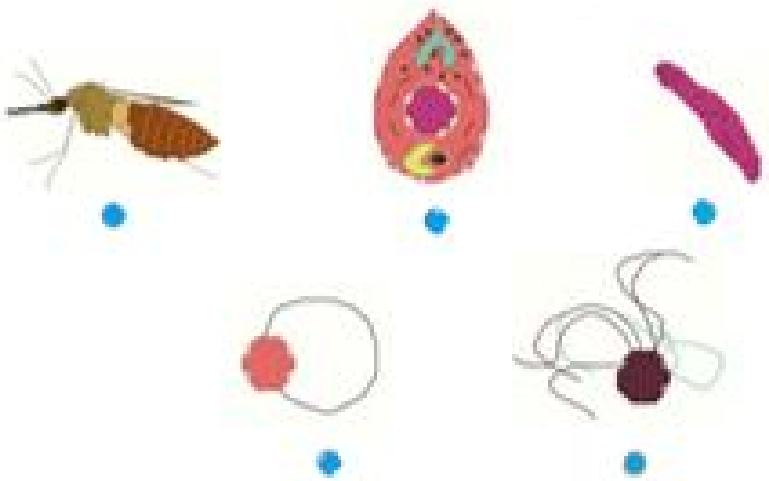
CROSS-WORD



Hint: Germs of Parasitic alveolates, many of which cause Malaria in their hosts.

PLASMODIUM

The user needs to match the corresponding fact bubble with the suitable life cycle of an Anopheles mosquito...



0/5

Gametocyte: It is a cell in **Plasmodium Falciparum** specializing in the transition between the human and the mosquito host.

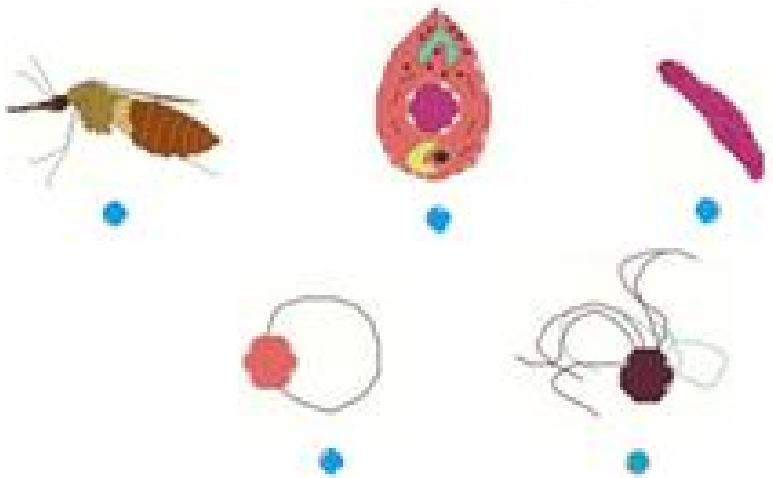
On matching the Fact Bubble with the corresponding answer, it turns green and the score gets added at the top right hand side corner.

Gametocyte: It is a cell in **Plasmodium Falciparum** specializing in the transition between the human and the mosquito host.

1/5

Way to go..!!!

On matching the Fact Bubble with the incorrect answer, the following screen appears...

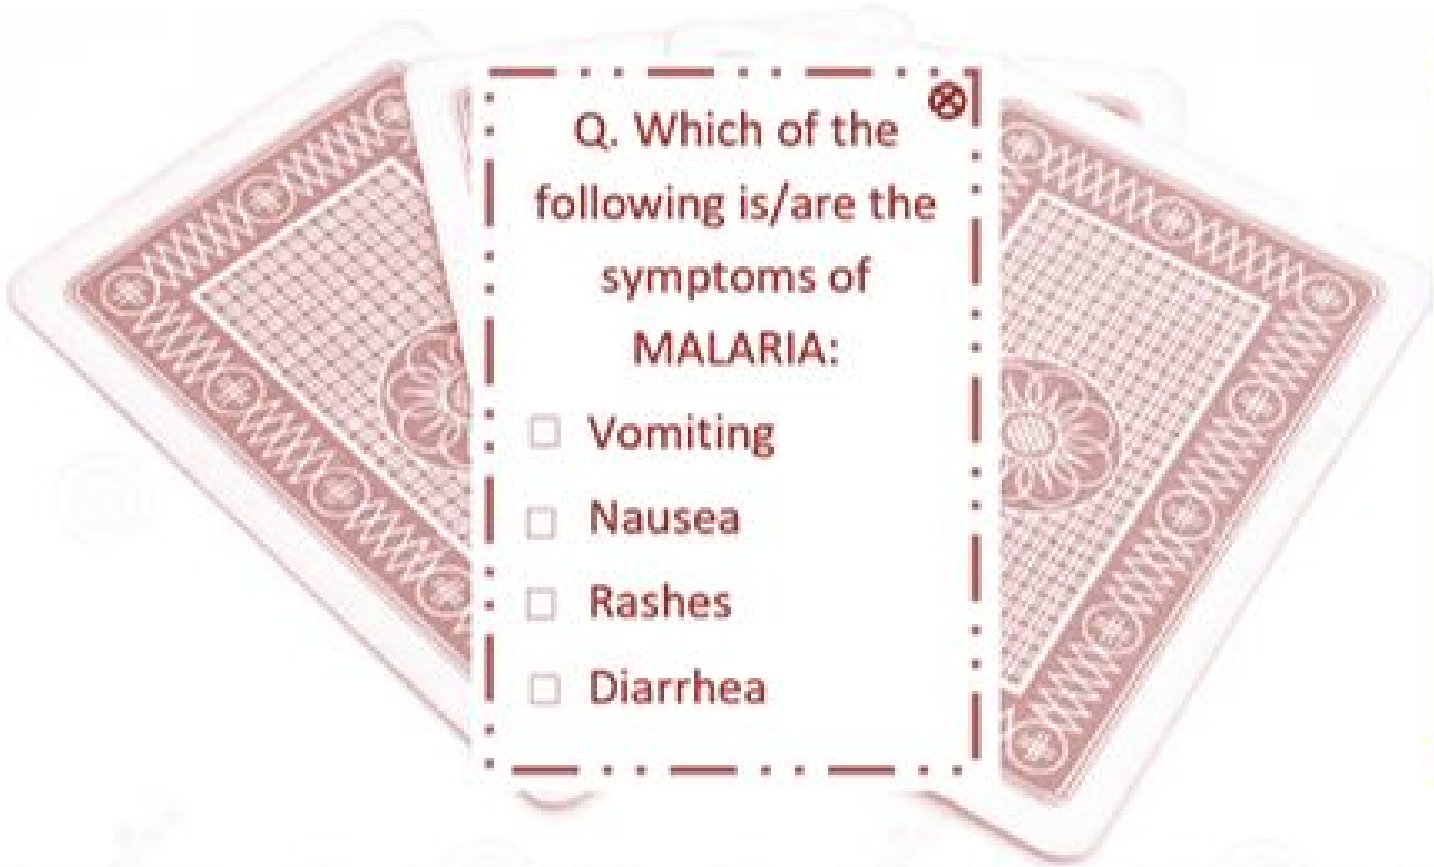


0/5

Gametocyte: It is a cell in **Plasmodium Falciparum** specializing in the transition between the human and the mosquito host.

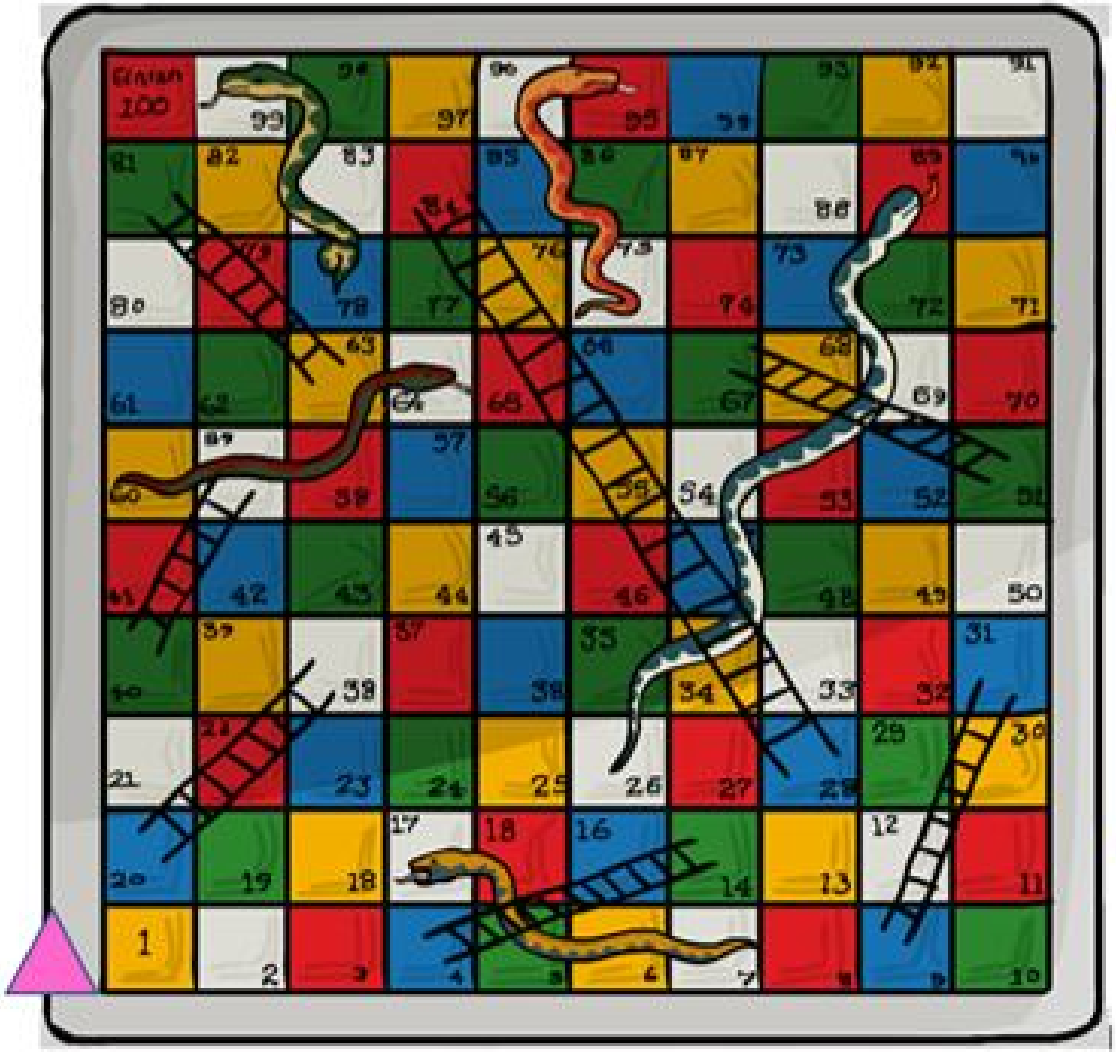
Try Again..!

The user clicks on any of the cards, and a dynamically chosen question from the database, relating to malaria is asked.



When the card is clicked, the kit expands overlaying the contents beneath it.

It can be closed by tapping the 'x' in the top right corner of the screen



The user rolls a die and depending upon the number, makes a move....

On landing upon the snake the user is made familiar with one of the causes of Malaria and on landing upon the ladder, the user is informed about the preventive measures....

Activity

1/3

Meet the Meds....

Mefloquine

AKA "Uncle Mef"

Not everyone gets his jokes, and some people get upset stomach, dizziness and rarely, neuropsychiatric effects. He generates a lot of famlily gossip and innuendos, but in fact most people can tolerate him just fine.

Malarone

AKA "Princess Mal"

She's rich, pretty and has expensive taste. She demands you dine with her every day, and while you want to hate her and her high maintainance ways, she's genuinely nice.

Doxycycline

AKA "Mama Doxy"

Momma Doxy is the nagging mom we all know and love. She's in your business every day, she demands that you use sunblock, and sometimes she bugs you until your stomach gets quesy. But, she wants to solve all your problems - not just malaria.

Got it.
