

The user needs to match the corresponding fact bubble with the suitable life cycle of an anopheles mosquito...

0/5

Gametocyte: It is a cell in **Plasmodium Falciparum** specializing in the transition between the human and the mosquito host.

On matching the Fact Bubble with the corresponding answer, it turns green and the score gets added at the top right hand side corner.

Gametocyte: It is a cell in **Plasmodium Falciparum** specializing in the transition between the human and the mosquito host.

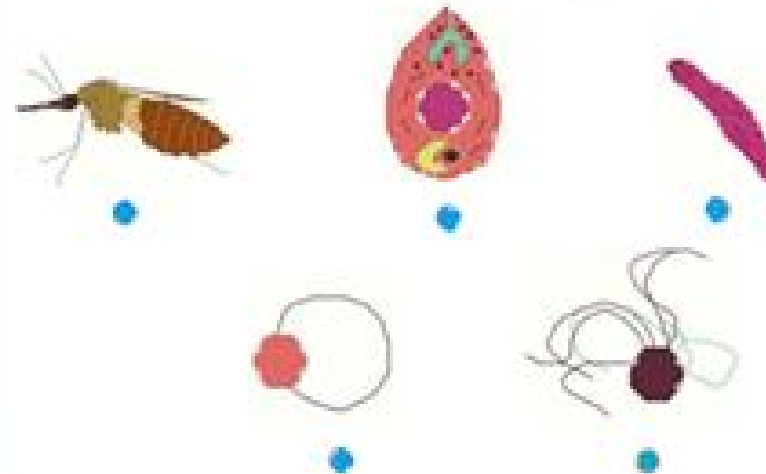

1/5

Way to GO..!!!

0/5

On matching the Fact Bubble with the incorrect answer, the following screen appears...

Gametocyte: It is a cell in **Plasmodium Falciparum** specializing in the transition between the human and the mosquito host.
